

SAUGERTIES CENTRAL SCHOOL DISTRICT PRESCHOOL PROGRAM

Reopening Plan 2020-2021

Amanda Bradley
Preschool Coordinator
abradley@Saugerties.k12.ny.us

Four Pre-K Site Locations:

Mt Marion (2 classrooms)
Riccardi
Grant D Morse
Cahill

-Virtual Pre-K Survey will be emailed and made public for all enrolled pre-k families to complete. This will gather and communicate participation in the outlined plan. A question and answer document will be compiled from survey data to help families throughout this process.

*If you **DO NOT** wish to participate in our program we ask that you email or complete the survey indicating your registration update.*

PRESCHOOL PLAN:

- ▶ Preschool will follow the lead of the District.
- ▶ We will begin Tuesday, September 8th with our virtual plan as follows. We will remain 100% remote until October 5th.
- ▶ As the District makes decisions on re-opening we will follow their lead and update families as necessary.
- ▶ You will be contacted individually by September 2nd to sign-up for a teacher meet and greet **outside** their registered school. During this time your child will receive class materials. Times will be adjusted to accommodate families. Directions will be given for these time slots to maintain safety standards.

VIRTUAL LEARNING PLAN: PRE-K

- ▶ Each Student will receive a take home 'toolbox.'
(this will include all necessary items needed to complete at home activities)
- ▶ Bi-Weekly Kits will be given to all enrolled students that will include hands on activities, appropriate worksheet materials, and engagement plans. These are all developed around a learning theme and academic standards.
- ▶ Bi-Weekly Kits will be distributed on a pick-up schedule at your child's registered school. Arrangements will be made on a private basis for families who are unable to attend these pickup distribution times.

VIRTUAL LEARNING PLAN: PRE-K:

- ▶ Distributed in the Bi-Weekly kits will contain our lesson plan and goals for the two week period.
- ▶ Each week all our pre-school teachers will be completing pre-recorded videos to compliment the lessons and activities of the week: Videos will include letter work, social and emotional recognition and regulation techniques, fun science activities, read alouds, etc!
- ▶ Each video will be uploaded to a Saugerties Preschool YouTube channel. This will allow every family easier access at anytime to all videos.

VIRTUAL LEARNING PLAN: PRE-K

- ▶ We will be hosting virtual classroom meet sessions through google meet. This format is used via email. Each family who will want to participate will submit an email to receive an invite for the meet. We understand your child may be in the care of others, we will be able to email the invite to whoever will need access at the given time.
- ▶ Virtual 'meets' will be varied times/days in order to accommodate as many families as possible! These meets are not required and are used so children can interact (as best as possible) with others in their class as well as there teacher!

VIRTUAL LEARNING PLAN: PRE-K SUPPORT:

- ▶ Each teacher will be creating a welcome video to help your child and family get to know our program and teachers.
- ▶ Every family will be given a direct email for their child's teacher to help support and answer any questions you may have. We also love seeing pictures of students completing projects and any activities they want to share a picture of!
- ▶ The preschool coordinator, Amanda Bradley, will be available via email at anytime to help in anyway. Phone conferences and virtual meetings can be requested as needed.

abradley@saugerties.k12.ny.us

- ▶ We will be communicating via email often. During the survey you will have the opportunity to enter an email address to receive updates and communication from our program.
- ▶ If your child or family need anything during this time please reach out! We will help and provide whatever resources we can during this difficult transition.
- ▶ As plans become released for a possible in-person opening, we will communicate with families our plan to make a smooth transition as well as continued remote learning options.
